Sub: $6-1$, $6-5$, $7-2$, $7-5$, $8-3$, $8-5$, $9-4$, $9-5$, $10-5$

- Try the Ten-Frame online activities at <http://illuminations.nctm.org/activity.aspx?id=3565>
- Yellow is the Sun - got to <https://rightstartmath.com/our-curriculum/songs/> to find a song to practice these facts.
- The Lego Game - This game can be played with 2 or more people, using 2 dice (or number cubes) and a set of 20 or more Lego pieces.
 - Place one die (or number cube) in the center of the table with the 5 facing up. Each player takes turns rolling the other die and adding this number to the 5. The player with the highest sum gets to select a Lego piece. If a tie occurs for the largest sum, then all players with the largest sum select one Lego piece each.
 - At the end of the game, each player gets to make a Lego creation to share. For older children, this game can be adapted to play with points, or using a Cribbage board, rather than building with Legos.
